

# ACOUSTIC FABRIC - *An woven acoustic fabric for covering absorbers*

## Key Benefits

- Allows for better sound absorption
- Easy to cut with scissors
- Class 1 fireproof
- Can be cleaned with a cloth or vacuumed.
- Available in 40 colours
- Supplied off the roll per metre, 1.7m wide. (Min order of 5 metres.)
- Usually available from stock depending on colour required

## Description

Our open weave acoustic fabric allows sound to pass through it. We use this fabric to cover many of our acoustic screens and panels and due to its popularity are now pleased to say we can supply it by the metre off the roll.
